**Extract from Speech of Cardinal Gibbons at the Com-  
mencement Exercises, June 18, 1907.**

"Christian schools, like Holy Cross College, are indispensable for the moral and mental development of the rising generation."

This comprehensive picture embraces all the college buildings, Alumni Hall, the Old North Building, O' Kane Building, the new Beaven Hall and the terraces from the river wall to the top of Pakachoag, the new Tennis Courts and Fitton Field from the entrance to the baseball grandstand to the eastern end of the new steel and concrete football grandstand, including College Street, with the two car lines meeting at the entrance to the grounds, the baseball field, Fitton Avenue—the elevated resort of carriages and automobiles—and the historic "clust'ring pines."

This view embraces the College Campus, including the baseball field, with its new steel and concrete grandstand, and the 220-yard cinder track.

## TERMS

The following is as complete a general statement as can be given of the expenses of a student's year in the college, with the terms for payments and some information about equipment and incidental expenses:

### RESIDENT STUDENTS

Tuition, per annum .....	\$100 00
Board and Lodging, per annum .....	300 00
Furnished rooms and attendance (double rooms):	
O'Kane Building and Annex.....per student	45 00
Alumni Hall .....	per student 60 00
Beaven Hall, per student .....	60 00

When engaging private rooms, students must make a deposit of ten dollars as security against damage to room or furniture. No room will be *reserved* until this deposit is made.

### NON-RESIDENT STUDENTS

Tuition.....per annum	\$100 00
Tuition and dinner.....per annum	200 00

### ADDITIONAL EXPENSES

Matriculation Fee .....	\$ 5 00
Graduation Fee .....	10 00
Athletic Fee .....	15 00
Chemistry (General or Analytic) Fee....per annum	10 00
Chemistry (Organic) Fee.....per annum	15 00
Physics Fee .....	per annum 10 00
Physics Laboratory .....	per annum 10 00
Biology Fee .....	per annum 10 00
Biology Laboratory .....	per annum 10 00
Biology (use of microscope).....per annum	5 00

Science students have also to make a deposit as security against breakage.

*All charges must be paid half-yearly in advance. If payment is deferred without a satisfactory understanding with the President, the latter is directed by the Trustees to remove the students in question from the institution. No student will be admitted to his examinations if any bills remain unpaid.*

By "lodging" is understood bed and bedding with necessary furniture and attendance, heat and light. Private rooms are furnished with bed and bedding, study-desk, two chairs, wardrobe, heat, light and attendance.

No expenditure for clothing or for incidental expenses of any student, nor advances for pocket money, will be made by the institution, unless an equivalent sum be deposited with the Treasurer of the college. The books and stationery necessary for the different classes may be purchased at the college, but will not be supplied on credit unless special instructions to that effect be given to the College Treasurer. Books, Fees and other incidentals are not included in any scholarship.

There is no charge for the services of the college physician, but medicines procured at the college infirmary will be charged as used by individuals.

*The college will not be responsible for books or articles of clothing left behind by any student when leaving the college, much less for the loss of books, clothing or other articles while in the keeping of the students.*

## ENTRANCE REQUIREMENTS

---

Students may enter at any time during the year, and, on examination will be assigned to the class for which their prior attainments have fitted them; but it will be found most to the interest of the student to enter on the opening day in September.

Satisfactory testimonials of good conduct will be required from all new students; and from those who come during the school year from other institutions certificates of honorable dismissal will be required.

Candidates for admission to advanced classes must pass a satisfactory examination on all the subjects previously studied by the class which they desire to join.

From certain preparatory schools of established reputation, students are admitted to the Freshman class without examination, upon the principal's assurance that they have completed the required amount of work *along the lines herein prescribed*, and are prepared to enter college. In such cases, however, a detailed statement of the studies successfully completed must accompany the principal's certificate. Such certificate must indicate an advance of four years beyond grammar school studies, and the studies must be *classical*—four years' Latin and, at least, three years' Greek. Our entrance blanks will be sent to candidates on application.

In all other cases, for admission to Freshman class, a successful examination is required in the following subjects. Equivalents in certain subjects will be accepted.

**LATIN**—(1). Grammar.—The entire Latin Grammar, including a knowledge of all regular syntactical constructions; translation into Latin, at sight, of complex English sentences, entailing the application of rules for relative clauses.

indirect discourse and conditional sentences, etc. Prosody. All the rules for quantity, including increments of nouns and verbs. Application to hexameter and pentameter verse. Scansion of Ovid and Virgil.

(2). Composition.—Translation into Latin of easy continuous prose based on Cæsar and Cicero. This requirement is of very special importance, and great weight will be given to it in the examination. The use of Cicero's Letters, as well as his Orations, as models for the acquirement of Latin idiom, is strongly recommended to those preparing to take this examination.

(3). Authors.—Nepos: Lives of Themistocles, Miltiades, Hannibal. Cæsar: De Bello Gallico, two books. Ovid: Metamorphoses and Tristia, 1000 lines. Cicero: Selected Letters, De Senectute or De Amicitia, two of the Orations against Catiline. Virgil: Bucolics I and IV; Georgics, Book IV; Æneid, two books. For some of these may be substituted Phædrus, Catullus, Sallust.

GREEK.\*—(1). Grammar.—Etymology, complete (including the irregular and defective forms); entire syntax and its application; the Homeric dialect.

(2). Composition.—Translation into Greek of simple English sentences based on Xenophon's Anabasis.

(3). Authors.—Xenophon's Anabasis, Books I, II, III, and IV. Homer, Iliad, Books I, II, and VI. For the Anabasis may be substituted Xenophon's Cyropædia, Memorabilia or Hellenica.

N. B.—In assigning the matter above, the purpose of the Faculty is, on the one hand, not to insist on quantity, and, on

---

\* Should a candidate, otherwise qualified, be unable to meet the requirements in Greek, he may take elementary Greek in his Freshman year and finish the Greek course before graduation.

the other hand, not to accept the mere reading of a stated amount of assigned authors as sufficient preparation for college. In the discussion of the classic authors, both Greek and Latin, the candidate must be prepared to give a complete grammatical analysis of every word, phrase and sentence, and to point out exceptional idioms, and must be informed on the chief points of collateral erudition connected with the text.

ENGLISH.—Higher Grammar.—The candidate must be prepared on the matter contained in Davidson and Alcock's "English Grammar and Analysis," Nichol's Composition, Scott-Denny's Composition-Rhetoric, Coppen's Introduction to Rhetoric, or some equivalent works.

Composition.—A brief prose composition will be required, evidencing proficiency in narrative and critical writing. This exercise will be based on books and authors assigned for reading and study. Questions will be asked as to the subject-matter, method of treatment, structure and style of these books. Fair penmanship and accurate spelling will be considered as essential preliminary requirements.

The authors assigned for 1920-1921 are: Coleridge, *The Ancient Mariner*; Tennyson, *Holy Grail* and *Morte d'Arthur*; Addison's *Sir Roger de Coverley*; \*Macaulay, *Essays on Milton* and Addison; \*Milton, *Minor Poems*; \*Shakespeare, *Macbeth* or *Merchant of Venice*; \*Burke on *Conciliation*; Lowell, *The Vision of Sir Launfal*, Newman's *Callista*.

A careful study of the works marked thus \* (subject-matter, form and structure) will be exacted; a general acquaintance with the other assigned books will be sufficient.

N. B.—*The Uniform College Entrance Requirements in English for 1921 will be accepted, as will any fair equivalent work in this department.*

**HISTORY.**—The History of the Oriental Nations, of Greece, Rome and England; Montgomery's History of the United States, or some equivalent. Elements of Civics.

**MATHEMATICS.**—Elementary and Higher Algebra; Geometry, plane and solid.—Wentworth's Complete Algebra and Wentworth's Geometry, or works of equal grade.

**MODERN LANGUAGES.**—The elements of grammar, including the irregular verbs; translation into English, at sight, of simple prose; grammatical analysis. One modern language, other than English, is required, preferably French or German. In case a candidate should not be prepared to meet this requirement, he will be obliged to follow an elementary course in either French or German during his Freshman year.

---

## SPECIAL STUDENTS

---

Students may enter deficient in Greek and this deficiency may be remedied during the first year, or before the end of the Junior year, according to the previous preparation of the student and his co-operation with his instructors. To be registered as a *special* student one must be a high school graduate and must have completed four years of Latin. Information about such special classes may be obtained by communicating with the Prefect of Studies.

In some exceptional cases, special students are allowed to discontinue or omit the study of Greek, but with the express understanding that they thus cease to be candidates for the degree of Bachelor of Arts. Such students are classified as "out of course."

COLLEGE OF THE HOLY CROSS

FOUNDED 1843.

**Historical Statement.**—The College of the Holy Cross was founded in the year 1843, by the Rt. Rev. Benedict Joseph Fenwick, second Bishop of Boston, and is the oldest Catholic College in New England. It had long been a cherished desire of Bishop Fenwick to establish in his diocese, which then included the city of Worcester, an institution for the higher education of Catholic young men. In bringing about the realization of this desire, he was aided by the Rev. James Fitton, who had, as early as 1838, established the Seminary of Mt. St. James on the hill which now bears that name, but was then known as Pakachoag, "Hill of Pleasant Springs." This institution, with its sixty acres of land, Father Fitton presented to the Bishop in 1842, and on this site the distinguished prelate determined to build his college. He gave it the name of his cathedral, with the motto and emblem of the Boston diocese—a cross in the heavens, as it appeared to the Emperor Constantine, with its historic legend.

The fact that the site was a gift was not the only consideration that influenced the Bishop in his selection. The healthfulness of the location and the natural beauty of the surrounding scenery were controlling motives. The spot, too, was considered at the time consecrated in local history. Near it the first humble wigwam church of Worcester had been erected by John Elliott for his Indians in 1674. The Fathers of the Society of

Jesus, who had long been established in Maryland, were invited to organize the courses of study according to the curriculum of their college at Georgetown, in the District of Columbia, and to take entire charge of the teaching.

On the second day of November, 1813, classes were organized in what was then known as the "Seminary of Mount St. James," and were there continued until January 13th, 1844, when the first college building was completed. The cornerstone of the latter was laid by Bishop Fenwick on June 21st, 1843. Speaking of this event, the *Catholic Expositor* of August, 1843, describes the purpose of the new institution as "the advancement of the arts, the cultivation of the sciences and the promotion of patriotism, morality, virtue and religion." The same publication describes the first building as a brick structure 104 feet in length and four stories in height "with a fine portico on the centre of the front." The first annual exhibition was held July 29th, 1844. The saintly Bishop Fenwick died August 10th, 1846, and was buried, in compliance with his own wish, in the college cemetery. He had always taken a deep interest in the success of the college, and a few days before his death, the 6th of August, he had ceded to the Fathers full control and possession of the institution, with the buildings and grounds, free of incumbrance.

On the afternoon of July 14th, 1852, eight days before the annual Commencement, a fire broke out, which destroyed the whole of the central building. This calamity not only suspended the class exercises, but threatened the very existence of the institution. The Rt. Rev. John B. Fitzpatrick, who was then Bishop of Boston, sympathized heartily with the Faculty, and determined that the college, which had been a monument to his predecessor's zeal for Christian education, should not perish. On the 3rd of October, 1853, the college, enlarged and remodeled, was again ready to receive students. The effect, however, of such a calamity on the young college

is shown by the interruption in graduating classes from 1852 to 1858.

**Incorporation.**—A class of the students, who had entered in 1843 and 1844, had advanced to "Philosophy," by which name the Senior year was then known, and were ready for graduation in 1849. The college, therefore, in that year applied to the Commonwealth of Massachusetts for the privilege of incorporation. The petition for a charter was presented in March, 1849, and was acted upon early in April. The petitioners were disappointed. The charter was not granted until the year 1865, when the sobering influence of the Civil War had caused all differences of opinion in regard to the college to be set aside.

If the students were disappointed in the hope of receiving their diplomas from their Alma Mater, they were not deprived of the benefits of graduation. Georgetown College, in the District of Columbia, conferred the degrees on all who were graduated from 1849 to 1852 and from 1858 to 1865. How the Faculty and students bore their disappointment at this time may be judged from the testimony of His Excellency Governor Alexander H. Bullock, who said at the Commencement in 1868, alluding to the unsuccessful attempt to obtain a charter, that he had been deeply impressed by the manner in which the friends of the college hid all signs of disappointment and exhibited a patience which, under such circumstances, he would hardly have dared to expect from many Christian denominations.

It was during the Civil War, as intimated above, that the college, besides having become endeared to the Catholics of New England, had also attracted the favorable notice of many non-Catholics. The most distinguished among those who manifested an interest in the college at this period, was His Excellency the War Governor, John A. Andrews. He visited and ex-

amined the institution during the school term of 1862, and presided at the annual Commencement of that year. On the latter occasion, he spoke of the college in the highest terms, and the sincerity of his praise was unmistakable. He had taken pains to acquaint himself with the methods of teaching employed at the college, and was qualified to bear testimony to their excellence. The impression made upon the Governor during these two visits secured his interest in behalf of a charter, and he more than once urged the Faculty to apply for it.

The interesting event of incorporation was not long delayed. A petition was presented to the Legislature in the session 1865. A bill was framed to meet the exigencies of the case, read a third time in the House of Representatives on March 21st, and passed without opposition. The Senate confirmed the action of the lower body on March 23d, and on the following day the Governor affixed his signature.

The charter granted to "The Trustees of the College of the Holy Cross, in Worcester, Massachusetts," with other privileges, the power "to confer such degrees as are conferred by any college in this Commonwealth, except medical degrees." This placed the college on an equality, before the Commonwealth, with all other institutions of a similar character. It was no little gratification to the Faculty that their earnest devotion to the cause of religion and education was acknowledged by the State, and it was a source of pride to the students to be able to receive from their Alma Mater, in her own words and over her own seal, the testimony of her approval.

It is gratefully recorded here that the college was particularly indebted to Hon. Alexander H. Bullock for many acts of courtesy. As a resident of Worcester, he had always taken a neighborly interest in the college, while speaker of the House he offered to present the petition for a charter, and while Governor of the State he presided at three successive Commencements. His example has been followed by most of the

Governors of the Commonwealth since his time, particularly by Governor Ames, who founded a scholarship at the college, and Governor Curtis Guild, Jr., who attended five successive Commencements, at all of which he delivered memorable addresses, manifesting a cordial interest in the institution.

**Location and Equipment.**—The college buildings, as stated above, are situated on one of the highest of the eminences surrounding the city of Worcester. Towards the north, this "Hill of Pleasant Springs" commands an extensive and most delightful view of Worcester, at the time of the founding of the college a town of hardly 10,000 inhabitants, now a bustling city of more than 190,000, and, next to Boston, the largest city in Massachusetts. Over and beyond its many towers and spires and other elevations, looms aloft in the background, against the northern horizon, the summit of Mt. Wachusett, the second highest point in Massachusetts. The educational character of the environment is indicated by the prominent sites of Clark University, Worcester Polytechnic Institute, the State Normal School, Worcester Academy, and six local High Schools, two of these under Catholic control. The view thus afforded of the busy city, with the succession of hills and intervening valleys, makes the location of Holy Cross College most charming and interesting. To this delightful prospect, exceptional advantages of pure air and perfect drainage are added by the high elevation, while the graceful terraces to the north and west of the college buildings furnish recreation grounds that are unsurpassed in every respect. Impartial visitors do not hesitate to declare that for healthfulness of location and for educational environment Holy Cross is exceptionally favored.

The old buildings, whose accommodations satisfied the student of a quarter of a century ago, have been enlarged and im-

proved in many ways, and extensive new construction and improvements have been made in recent years.

An improvement which was at the time considered of vast importance was the raising and extending of the east wing of the main building in the spring of 1875. This wing, the only part of the building spared by the fire in 1852, gave place in time to a structure one hundred and twelve feet long, with an east frontage of ninety feet. The first and second stories are used for the students' dining halls; while the chapel is on the third floor and occupies the space of two stories. Adjoining this wing, on the southeast corner, is the infirmary.

A later and more modern extension, now known as "the O'Kane Building," was completed in the spring of 1895, and formally opened in September of the same year. In the basement is the gymnasium, 139 feet long, 50 feet wide, and 29 feet high. It is equipped with all the apparatus usually found in modern gymnasiums. A running track, one-seventeenth of a mile in length, elevated about ten feet from the floor, skirts the entire hall. Off the main gymnasium, shower baths and lockers are provided for the students. In the southwest corner of this building is Fenwick Hall, a large assembly room, with a seating capacity of over 500, well lighted by double-arched windows on the west and south sides, and so decorated and furnished as to make a most attractive auditorium. This hall is used for weekly elocution classes, dramatic exhibitions, public and private debates, and all general assemblies of the students. It is provided with a stage, equipped with the latest theatrical appliances, and is lighted by electricity. The chemistry department, which occupies all the corresponding space on the floor below, is provided with all the necessary conveniences for work in general and analytical chemistry. The lecture-room and the two laboratories are specially designed and constructed for the purposes for which they are intended. The class-rooms, on the two floors above the gymnasium, are

spacious and lightsome, and the corridors, long, wide and cheerful. The two floors above the class-rooms are reserved for the private rooms of resident students. These rooms are pleasantly situated, with east and west exposure, and are lighted by electricity.

A more recent building is "Alumni Hall," which was opened in September, 1905. It contains nearly one hundred living rooms for students, with hot and cold baths. The lower floors also provide large lecture-rooms for philosophy, physics, English and history, besides a new instrument room, reference library, museum, and a laboratory for physics. The department of physics occupies two floors in the northeast corner. The physics lecture-room, capable of seating over 90 students on elevated tiers of lecture chairs, is particularly well lighted and is equipped for projection work with the lantern. The lecture table is provided with the latest and most approved conveniences, the alternating current being available at all times for lighting and experimental purposes, while direct current is furnished by a 1 k. w. Holtzer-Cabot generator with separate exciter and driven by an induction motor. There are besides a mercury arc rectifier and a double set of storage cells. The large apparatus-room, adjoining the lecture room, contains the requisite instruments for experiment and demonstration in the various branches of physics. The laboratories on the floor below the lecture room, with a floor space of 2400 square feet, are capable of accommodating classes of fifty students in Physics and Mechanics. All apparatus is of the precision type and designed especially for quantitative work in mechanics, heat, light, sound and electricity. The building is entirely fireproof, is lighted by electricity and provided with the most modern heating and ventilating equipment.

The latest addition to the college buildings is "Beaven Hall," the generous gift of the late Right Reverend Thomas D. Beaven, D.D., and the clergy of the Springfield diocese. This new

building was opened in September, 1913, and is at present devoted exclusively to the use of the Senior class. Sixty-seven living rooms for students occupy the three upper floors, while the lower floor provides a large lecture-room capable of seating one hundred and fifty students, a laboratory for biology and a class room for elective branches. Adjoining the large lecture room are the Seniors' library, and the geological museum. The building is entirely fireproof and equipped with the latest improvements for lighting, heating and ventilation.

Recent changes of dormitory arrangements have added, in what is known as "The Annex," thirty-two private rooms for students. At present, therefore, there are, in Beaven Hall, 67 students' rooms, in Alumni Hall, 91 rooms, in the O'Kane Building, 51 rooms, and in the Annex, 32 rooms, making in all 241 private rooms for resident students.

**Educational System\***—The system of education is the one in use in all the colleges of the Society of Jesus, and is guided by the principles laid down in the famous *Ratio Studiorum*. This body of rules and suggestions has been elaborated by centuries of experience and has been judged worthy of attentive study and hearty approbation by the ablest scholars. One of its greatest advantages is that it secures, what is an essential requisite for success in educational work, natural, thorough and effective methods of teaching, employed uniformly by all the teachers.

It is not a system of ever-changing theory and doubtful experiment, but one on which have been built the characters of the world's best scholars and statesmen for centuries. It meets the demand for modern improvements by wise adaptation and readjustment. Instead of abolishing prescribed studies and increasing elective courses, it advocates a wise, deliberate and

prudent election *by men whose profession is education*, not an unwise, sudden and rash choice *by inexperienced youths just entering on the process of education*.

The natural sciences and modern languages are by no means overlooked or neglected in this system, but the ancient languages and their literature are still retained as prescribed studies, and, with mathematics and philosophy, form the "essential trinity of courses," which Prof. Ladd of Yale rightly considers "absolutely necessary for a truly liberal education."

The importance of the classics even for those who intend to specialize in mathematics or the natural sciences, was emphasized recently by a man who stands at the head of the engineering profession, Dr. Charles F. Steinmetz, in these words: "It is my opinion that the neglect of the classics is one of the most serious mistakes of modern education and that the study of the classics is very important and valuable, and *more so in the education of the engineer* than in most other professions, for the reason that the avocation of an engineer is specially liable to make a man one-sided. . . . It is true that the classics are not necessary if the aim is to fit a student to *ply the trade* of engineer, as that of plumber or boilermaker, but such learning of the engineering trade can hardly be called *receiving an education* and certainly does not fit the man to intelligently perform his duties as citizen of the republic during the stormy times of industrial reorganization which are before us."

After the completion of such a course as is here given, the graduate is not sent to the theological seminary without any knowledge of the language in which the New Testament was written or of the methods of philosophical reflection and their bearing upon the problems of life and destiny. He is not sent to the medical school without some knowledge of physics and chemistry and some idea of the moral responsibility of the physician and surgeon. He is not sent to the law school without

an intelligent grasp of the ethical nature and development of man and of the logical processes which make for and characterize sound judgment. He is not sent to the profession of teaching without some training for success in grasping truth and imparting it to others, some more intimate knowledge of the responsibility of a teacher than he can get from a few vague talks on pedagogy, some more extensive knowledge of psychology than may be acquired by a brief course in "child study." On the contrary, he is sent out from his college so uniformly equipped and harmoniously developed in character that he is prepared to take up and prosecute any career, or even get more pleasure out of a life of leisure than a man who has missed such a preparation. Even as an equipment for a business career, such a preparation, as ex-President Low of Columbia testifies, "would make him a power in the business world beyond all his compeers who had not been so favored." Finally, this system does *not* meet the demand of the multitude who are simply anxious to "get through college as soon as possible," but it does make profound thinkers, safe guides, clear writers, logical pleaders and cultured gentlemen.

**Curriculum of Studies.**—The studies are not elective, but prescribed, with a few exceptions in the Senior and Junior years. Besides the Latin and Greek classics, the curriculum embraces English, in its various branches and aspects, and correlated studies, such as Rhetoric, Literature, Oratory, etc., Mathematics, Chemistry, Geology, Astronomy, Mechanics, a well graded course in History, one Modern Language besides English, and a thorough training in Physics and Rational Philosophy. A course in Pedagogy is provided in Senior year for students who contemplate entering the teaching profession, a course in jurisprudence for those who propose to study law, courses in Biology and Organic Chemistry and Laboratory Physics for those who intend to study medicine. The courses in detail are described further on.

**Moral Training.**—In this system of education, one of the most important features is the formation and training of character. Hence a closer supervision is exercised over the students than is usual, at the present day, in most of the large colleges; but an effort is made to exclude from this supervision every harsh feature. The professors live with the students, mingle with them constantly, interest themselves in their sports, direct their studies and in every way assume the relation rather of friends than of taskmasters. This constant, familiar, personal communication, on kindly terms, between professor and student, is a powerful factor in the formation of character. The age of the student is also considered, and in the later years of his college course a larger degree of liberty is granted him. With regard to younger students, the supervision is as close as any parent or guardian could reasonably expect. With regard to all, the enforcement of discipline, while mild and considerate, is unflinchingly firm, especially when there is question of the good of the student body or of the reputation of the college.

As the greatest help in maintaining good discipline is found in the appeal to conscience and religion, special attention is paid to religious instruction. Christian doctrine is one of the prescribed studies in every class, supplemented by weekly lectures and conferences. The students are required to comply with their religious obligations regularly, and to make annually a spiritual retreat of three days. Sodalties and other associations are also provided for the fostering of piety.

The consequence of the neglect or exclusion of such religious training of the heart, the conscience and the will, in preparation for the duties and struggles of life, was emphasized nearly a century ago by Daniel Webster. In his famous speech in the Girard case, he said: "It is a mockery and an insult to common sense to maintain that a school for the instruction of youth from which Christian instruction by Christian teachers

In his famous speech in the Girard case, he said: "It is a mockery and an insult to common sense to maintain that a school for the instruction of youth from which Christian instruction by Christian teachers

is sedulously and religiously shut out is not deistic and infidel in its tendency."

**Physical Training.**—While attending to the mental development of the student and safeguarding his moral character, the college authorities have not overlooked the importance of physical training. Besides the gymnasium, already described, the student is provided with football and baseball fields, running track and tennis courts. Not only are physical instructors and experienced coaches and trainers provided, but all this is under the moderation and direction of a member of the Faculty, who will see that the students do not become so engrossed in athletics that their studies may be neglected or their health suffer in any way.

With regard to all forms of college activities the policy of the college authorities has always been that the student's first duty in college is attention to study, and that no other student activity should be allowed to interfere with this main purpose of college life.

**Sessions and Holidays.**—The year is divided into two terms: the first from September to February, the second from February to the latter part of June. Recesses are granted at Christmas and Easter: the former begins at noon on the 23d of December and ends on the evening of the 3d of January; the latter begins at noon on Wednesday in Holy Week and ends on the evening of the Thursday after Easter. The limits of these recesses cannot be extended without serious detriment to a student's class standing. Parents and guardians are therefore requested not to sanction or ask for such extension. They are reminded, also, that exceptions made in favor of individuals are unfair to other students and injurious to discipline.

The ordinary holidays are as follows: Festivals of obliga-

tion, state and national holidays, one day after the mid-year examinations and after the annual retreat and Pentecost Monday. Letters asking leave of absence, for students residing at the college, must be signed by parents or guardians, and must be addressed to the Prefect of Discipline. Such permission will rarely be granted by telegraph or telephone.

**Examinations.**—There are two examinations in the year: the "Mid-year," at the end of the first term, and the "Final," immediately before the close of the academic year, in June.

**Promotions.**—Usually promotions are made only at the end of the year. If, however, at any time during the year, particularly after the mid-year examination, a student may be found qualified, he will be promoted; and such promotion will be considered equivalent to the honors of the class which he leaves.

**Reports.**—Reports of scholarship and deportment are sent to parents or guardians in December, April and June. Two of these reports give information, also, of the position held by the students in the two examinations. Should such reports not be received, parents or guardians are requested to notify the Prefect of Studies.

**Awards.**—The honors and prizes awarded at the close of the year are determined by the recitations of the entire year and the mid-year and final examinations. The average for recitations and examinations must be at least 90 per cent. to win a medal or premium; but honorable mention is made of those who attain 85 per cent. or more. As no allowance will be made for absentees, parents or guardians who permit their sons or wards to remain at home beyond the period allotted for vacation or recess, cannot expect to see them hold distinguished places in

their classes. The standing of the students in their respective classes is publicly announced every month, in the presence of the Faculty and students, and testimonials are awarded to those whose standing is 95 per cent. or higher.

**Degrees.**—The successful completion of the College course entitles the student to the degree of Bachelor of Arts. Students who omit any prescribed study are not considered candidates for a degree.

**Special Students.**—Provision is made for special students who may lack some of the requirements in Greek for unconditional entrance to any regular class. For such students, the deficiency in Greek may be remedied some time before graduation according to the previous preparation of the student and his co-operation with his instructors. To be entered as a *special student*, one must be a High School graduate and must have completed four years of Latin. In some exceptional cases, special students are allowed to discontinue or omit Greek, but with the express understanding that they thus cease to be candidates for the degree of Bachelor of Arts. Such students are classified as "out of course."

**Recitation Hours.**—The morning recitation hours are from 9.00 to 11.40, the afternoon hours from 1.30 to 3.15. Punctual attendance of non-resident students is insisted on, and such students will not be admitted to classes or lectures, when tardy or after absence, without a note from the Prefect of Studies. Twenty-two hours a week are given to recitations in the Senior year, twenty-three in Junior, and twenty-five in the other years. For the apportionment of these hours, see the Weekly Time Schedule.

**Societies.**—Besides the various religious organizations, namely, the League of the Sacred Heart, the Sodality of the Immaculate Conception, the Sodality of the Holy Angels, the

St. John Berchman's Sodality and the Day Scholars' Sodality, there are many flourishing societies among the students. Among these may be mentioned the two debating societies—the B. J. F. and the Philomathic. The Aquinas Circle, the Mendel Society, the Scientific Circle, the Pasteur Chemical Society, the Dramatic Society, the Library Association, the Reading Room Association, the College Orchestra, the Glee Club, the Editors of *The Holy Cross Purple* (the college magazine), the Athletic Association and the Tennis Association.

**Alumni.**—The graduates of the college from 1849 to 1920, inclusive, number 2165, of which number more than 1750 are still living, most of them holding distinguished positions in the various professions or in mercantile life. They are brought together socially and kept in touch with the college, not only through the circulation of the college magazine, *The Holy Cross Purple*, and by the general Alumni Association, but also by local branch organizations, such as the Connecticut Association, the Worcester County Association, the Bristol County Association, the Plymouth County Association, the Merrimac Valley Association, the Central and Western New York Association, the Rhode Island Association, the Berkshire County Association, the Northeastern Pennsylvania Association, the Holy Cross Clubs of Boston, New York and Philadelphia.

The first general association of the alumni was organized July 1, 1869, under the following officers: President, Rev. John J. Powers, '51; Vice-President, Rev. James A. Healy, '49; Recording Secretary, Dr. James A. McDonough, '63; Corresponding Secretary, Rev. John B. Purcell, '64; Treasurer, James L. Walsh, '66; Executive Committee, Rev. Michael F. Flatley, '65; Rev. William J. Denvir, '58, and Rev. Michael S. J. Burke, '68.

**Scholarships.**—While other institutions number their scholarships by hundreds, and the value of them may be estimated at millions of dollars, Holy Cross is able to offer very few. These she names with grateful benedictions on the heads of those who have bestowed them. They are:

**The Governor Ames Scholarship.**—Founded by ex-Governor Oliver Ames in 1887, for tuition during the college course.

**The Rev. Charles E. Burke Scholarship.**—(Interest on \$3000), limited to graduates of St. Joseph's High School, North Adams, Mass.

**The Thomas Callaghan Scholarship.**—Founded by the late Thomas Callaghan of Leicester, Mass., limited to residents of Worcester County, for tuition during the college course, "preference to be given to those preparing for the priesthood."

**The Rt. Rev. Monsignor Daniel F. Curtin Scholarship.**—Founded by the Rt. Rev. Monsignor Daniel F. Curtin, Glens Falls, N. Y., to be appointed by the pastor of St. Mary's Church, Glens Falls, N. Y., providing board, private room and tuition for the entire college course.

**The Monsignor Griffin Scholarship.**—Founded in 1895, limited to residents of St. John's Parish, Worcester, Mass., for tuition during the college course.

**The Two John H. Halloran Scholarships.**—Founded by Mr. John H. Halloran of New York, as a memorial of his brother, the late William J. Halloran of Worcester, one limited to residents of Northampton, Mass., providing board, private room and tuition for two deserving students during the entire college course.

**The Two Rev. Jeremiah J. Healy Scholarships.**—Founded by the Rev. Jeremiah J. Healy, of Gloucester, Mass., providing tuition for two deserving students during the college course.

**The Two Richard Healy Scholarships.**—Founded by Mr. Richard Healy of Worcester, providing board, tuition and private room for deserving students during the entire college course, limited to residents of Worcester County.

**The Rev. Frederick W. Heaney, S.J., Scholarship.**—Founded by Miss Lillian Heaney, in memory of her deceased brother, the Rev. Frederick W. Heaney, S.J., the sum of \$2500.

**The "In Memoriam" Scholarship.**—Founded by an alumnus of the College, providing board, private room and tuition for a deserving student during the entire college course.

**The Rev. Michael H. Kittredge Scholarship.**—(Interest on \$5000), bequeathed by Rev. Michael H. Kittredge, '75.

**The Knights of Columbus Scholarships.**—Granted by the Knights of Columbus for deserving students who were in the service of the Army or Navy of the United States during the late war, providing all expenses during the entire college course.

**The Henry Vincent McCabe Scholarship.**—(Income on \$5000). Founded by the late Mary McCabe of Providence, R. I., for a deserving student during his college course.

**The Three Rev. David F. McGrath Scholarships.**—Founded by Rev. David F. McGrath, '70, for board, tuition and private room during the entire college course, limited at present to graduates of St. Mary's High School, Milford, Mass.

**The Patrick J. Murphy Scholarship.**—Founded by Mrs. Ellen M. Murphy, as a memorial to her husband, the late Patrick J. Murphy, of Worcester, Mass., providing tuition for a deserving student during the college course.

**The O'Driscoll Scholarship.**—Founded in 1874, entitling the holder to board and tuition during the college course, limited to residents of the city of Worcester who are candidates for the priesthood and selected by the Bishop of Springfield or his delegate.

**The M. Thomas O'Leary Scholarship.**—The gift of Mrs. Mary O'Leary, in memory of her deceased husband, M. Thomas O'Leary, for tuition for a deserving student.

**The Two Rev. Daniel H. O'Neill Scholarships.**—One providing tuition during the college course for a deserving student residing in the city of Worcester, the other limited to residents of St. Peter's Parish, Worcester, Mass., for tuition during the college course.

**The Two Rev. Dr. Patrick B. Phelan Scholarships.**—Founded by Rev. Dr. Patrick B. Phelan, '69, for board, tuition, and private room during the entire college course, open to competition by graduates of the Sacred Heart School, Holyoke, Mass.

**The Rev. John J. Power Scholarship.**—Founded by the late Rev. John J. Power, D.D., limited to residents of St. Paul's Parish, Worcester, Mass., for tuition during the college course.

**The "Quid Retribuam" Scholarship.**—Founded by a Friend of Education in gratitude for divine favors, providing board, tuition and private room for a deserving student during the entire college course.

**The John Reid Scholarship.**—Founded in 1894, for tuition during the college course, limited to residents of Worcester.

**The Rev. William H. Rogers Scholarship.**—Founded by Rev. William H. Rogers, '68, providing board, private room and tuition for a deserving student during the entire college course.

**The Hon. John E. Russell Scholarship.**—Founded by a Friend of the College, providing tuition for a deserving student during the college course.

**The Dr. Eugene E. and Alice K. Sullivan Scholarship.**—Limited to residents of Worcester, Mass., for tuition during the college course.

**The Rev. Robert Walsh Scholarship.**—Founded in 1895, limited to residents of the Immaculate Conception Parish, Worcester, Mass., for tuition during the college course.

It is hoped that, in time, other generous friends of the college may be inspired to found at least partial scholarships and thus enable the Faculty, in answer to numerous appeals from deserving students, to make reductions for board and tuition. Thus the interests of education and charity could be made to go hand in hand and the future success of many a promising young man's career would be assured. Ten thousand dollars will found a scholarship providing tuition, board and lodging with furnished room and attendance. Twenty-five hundred dollars will found a scholarship giving free tuition.

Another method of assisting both Faculty and students is the foundation of medals and other prizes. The gift of \$500 or \$600 will found a medal in perpetuity and the founder's name will be perpetuated in the annual catalogues. It is hardly possible to conceive a more effectual way of perpetuating the memory of a benefactor than this foundation of college prizes and scholarships. The name of the benefactor will be annually recalled as long as the college survives, and unborn generations of beneficiaries will bless the memory of the benefactors.

## SCHEDULE OF COURSES

---

### PHILOSOPHY.

**Course I.—PSYCHOLOGY.**—*Senior Year.*—Five and one-half hours a week, one term.

**LIFE. 1. *Life in General.*** Properties of living and non-living bodies. Immanency of action. Scholastic concept of life.

**2. *Plant Life.*** Biologic mechanism. Anti-mechanistic theory. Origin, unity and divisibility of the vital principle. The vegetative functions; nutrition, growth, reproduction. Plants, non-sentient. Spontaneous generation.

**3. *Animal Life.*** Animals not automata. Origin, nature, unity, divisibility of the animal soul. Animals, sentient beings, not endowed with intelligence. Instinct. Theories of the origin of instinct.

**4. *Rational Life.*** Empirical and rational psychology. Methods of psychology; introspective, objective. Classification of human faculties. Distinction between the soul and its faculties.

**A. *Empirical Psychology.*** (1) **SENSITIVE LIFE.** Nature of sensation. Sensation and perception. Scholastic doctrine of species. Properties of sensation.

***The Senses:*** External and internal. Cognitional value of the senses. Law of relativity. Scholastic doctrine of the internal senses. Common sense. Estimative faculty or particular reason. Sensuous memory. Imagination. Hallucinations. Dreams.

***Perception of the Material World.*** Skeptical theories.—Descartes, Locke, Berkeley, Hume, Mill, Bain. Realism.

***Sensuous Appetite.*** Scholastic theory of appetency. Feeling. Theories of the nature of pleasure and pain.

(2) INTELLECTUAL LIFE. *Intellect and Sense.* Erroneous theories. Sensationalism. Nominalism. Conceptualism. Exaggerated Realism. Moderate Realism.

*Origin of Ideas.* Intellect and brains. Theory of innate ideas. Ontologism. Empiricism. Scholastic theory. Origin of necessary truths. Localization of cerebral functions.

*Judgment and Reasoning.* Analysis of the judicial process. Deduction and induction. Knowledge and belief.

*Attention and Reflection.* Nature of attention: voluntary and non-voluntary attention. Laws of attention. Psychological and ontological reflection. The soul's consciousness of itself. Validity of the testimony of consciousness. Apperception. Subconscious states.

*Memory.* Process of recollection. Laws of association. Retention of past experiences. Physical theory. Scholastic theory. Qualities of a good memory. Training of the memory. Diseases of the memory.

*Rational Appetency.* Nature of the will. Spontaneous action and deliberation. Free will and determinism. The emotions. Habits. Character.

B. *Rational Psychology. The Soul.* False theories on the nature of the soul. Hume, Mill, James. Monism. "Mind Stuff." Höffding's doctrine. The soul's substantiality, simplicity, spirituality, identity. Double consciousness. Alterations or personality. Hypnotism. Immortality of the soul.

*Soul and Body.* Individuality of the soul. Identity of the vegetative, sentient and rational souls in man. Union of soul and body. Theory of Plato. Occasionalism. Pre-established Harmony. Aristotelico-Scholastic doctrine. Unity of nature and of person. Locus of the soul. Origin of the soul. Theories of emanation. Traducianism. Evolution theory. Creation doctrine.

**Course II.—Natural Theology (Senior Year).** Five and one-half hours a week, one term.

Definition and scope. Relation to dogmatic theology. Necessity. The existence, essence, attributes of God. Concurrence of God in the action of creatures.

1. *The Existence of God.* Monotheistic philosophers on our knowledge of the existence of God. Ontologism—Malebranche, Gioberti. Rosmini. Traditionalism. Ontological proof of St. Anselm, Descartes, Leibnitz, for the existence of God. The metaphysical proof. The argument from design. The moral proof. Kant, Mill, Spencer, Mallock, et al., on the proofs of God's existence. Atheism. Agnosticism. Religious and moral consequences of Agnosticism.

2. *The Essence of God.* The idea of the Infinite. Unity of God. Physical and metaphysical essence. Polytheism. Pantheism. Modern Pantheists: Spinoza, Fichte, Schelling, Hagel. Anthropomorphism. Herbert Spencer, on the anthropomorphic idea of God.

3. *The Divine Attributes.* Immortality, Eternity and Immensity of God. St. Thomas, Lessius, Newton, Clarke, on the Immensity of God. Simplicity and Infinity of God. The Divine Intellect and Knowledge. Foreknowledge of God. Objections against the Divine Foreknowledge of free actions. The Divine Will. Freedom of the Divine Will. Omnipotence of God. Mill's objections against the Divine Omnipotence.

4. *Concurrence of God in the Actions of Creatures.* Preservation of creatures. Supernatural, natural, mediate and immediate concurrence. St. Thomas and "Promotion." Divine Providence and its relation to physical and moral evils. The possibility of a Supernatural Providence.

5. *Supplementary Questions.* Schopenhauer's "World Will." Hartmann's "Unconscious." Hæckel's Monism. Mansel, on contradiction in the idea of God. Spencer, on the idea of the absolute.

**Course III.—Ethics (Senior Year).** Five and one-half hours a week, both terms.

**FIRST TERM:** General Ethics. Moral acts and moral obligations.

Definition, nature, object, necessity of ethics. Ethics and revelation. False theories regarding the fundamental principles of ethics. The ultimate end of man. Beatitude. End of man's present existence. The human act. Merit and accountability. The Passions. Virtue and vice.

Essence and existence. Physical and metaphysical essence. Properties of essence. Our knowledge of essences. Refutation of Locke's opinion. Existing and possible beings. Intrinsic and extrinsic possibility. Origin of intrinsic possibility. Refutation of Wolff, Occam and Descartes.

Attributes of being. Unity. Transcendental and predicamental unity. Identity and distinction. Truth. Immutability in truth. Stuart Mill's denial of necessary truth. Goodness. Evil. Physical and moral evil. Metaphysical evil in Leibnitz.

The categories of being. Substance and accident. Hypostasis and personality. Distinction between nature and person. Separability of accident from substance. Principal accidents and their divisions. Quantity. Quality. Relation.

Principle and cause. Intrinsic and extrinsic causes. Principle and causality. Perfection of being. The finite and infinite. Necessary and contingent being. Mutable and immutable being. Duration. Time Eternity. Order and beauty.

**Course VI.—CRITERIOLOGY OR MATERIAL LOGIC (Junior Year).** Ten hours a week, for one-half term. Russo, S.J., Jouin, S.J., Poland, S.J., Rickaby, S.J., First principles (Stonyhurst series).

Truth. Ontological, logical and moral truth. Falsity. Logical truth and falsity, completely found in the judgment only. General and partial causes of error.

States of the mind in relation to truth. Ignorance, doubt, suspicion, opinion, certitude. Metaphysical, physical and moral certitude. Natural and philosophical certitude. Universal and partial scepticism. Descartes' Methodic Doubt.

Means of arriving at certitude. External senses. Internal senses. Intelligence. Reason. Consciousness. Intellectual memory. Transcendental and acosmistical idealism. Subjective idealism of Fichte. Objective idealism of Berkeley. Belief, on divine testimony. Belief, on human testimony, with regard to present or past events. Oral tradition. History. Monuments.

Ultimate and universal criterion of certitude. deLammenais. Huet. The traditionalists. Descartes. Reid. Rousseau. Galluppi. Objective evidence.

**Course VII.—DIALECTICS OF FORMAL LOGIC (Junior Year).** Ten hours a week, one-half term. Russo, S.J., Summa, Jouin, S.J. Logica, Poland, S.J., Coppens, S.J., Clark, S.J. Logic (Stonyhurst series).

Knowledge. Science. Philosophy: its definition and division. Natural and artificial logic. Minor and major logic.

The three operations of the mind. Material and formal object of an idea. Extension and comprehension. Mental and oral terms. Division of ideas. Transcendental and non-transcendental universals. The heads of predicables. The Porphyrian Tree. Divisions of terms. Anal-

ogy. Supposition of terms. Judgment. Propositions, their nature and divisions. Extension and comprehension of predicate. Quantity and quality of proportions. Opposition, conversion and equivalence of propositions. Reasoning and argumentation. The syllogism: its figures and moods. Reduction to first figure. Various kinds of syllogisms and their laws. Other forms of argumentation. Demonstration and its divisions. Probable argumentation. Analogy and hypothesis. Fallacies. Deduction and induction. Complete and incomplete induction. Analytical and synthetical method. Definition and division. Sciences, their division and subordination.

### POLITICAL ECONOMY.

Senior year. Two hours a week, both terms.

Nature of economic science. Relation to ethical and political science. Four schools: liberal or classical, socialist, Christian, historical. Notions of wealth, value and price.

Production: Factors of production: nature, labor, capital. Law of diminishing returns. Division of labor: advantages and disadvantages. Remedies.

Exchange. Money. Bimetallism. Monometallism. Paper money. International trade. Free trade and protection. Credit. Nature and functions of banks.

Consumption. Technical and moral points of view. Heads of consumption.

The problem of distribution. Wages, profits, rents. The labor problem. Socialist solution. The rights of property. Theories and methods of taxation.

Author: Burke, Political Economy.

References: Gide, Devas, Laughlin, Andrews.

### PEDAGOGY.

Senior year. Optional. Three hours a week, both terms.

#### A. HISTORY OF EDUCATION.

General survey of the history of education; special emphasis on important epochs and movements and their influence on the evolution of educational theory and practice.—Kemp's History of Education, selections.

**FIRST TERM:** History of education till the beginning of the seventeenth century.

1. *Greek Education.* Its character and influence on later educational activity. Education among the Romans.

2. *Early Christian Education.* Christianity as an educational factor; its educational principles, models and inspirations. The Catechetical schools. Attitude of the Fathers toward learning.

3. *Medieval Education.* Monastic and Cathedral schools. Charlemagne. The universities and scholasticism. Popular education.

4. *The Renaissance.* Its educational influence in Italy, Germany, France and England. Humanism and the beginning of modern classical education.

5. *The Reformation and Counter-Reformation.* Impetus given to popular education. Rise of school system in Protestant countries. The Jesuits and other teaching congregations.

**SECOND TERM:** Education during the last three centuries.

1. *Development of the Sciences.* Realistic education. Bacon, Comenius. Pedagogical views of Locke.

2. *Naturalistic Education.* Rousseau and his influence on succeeding educational theories.

3. *Nineteenth Century Educators:* Pestalozzi, Jacotot, Fröbel, Herbart. Influence of Spencer. Modern tendencies: scientific, psychological, historical, sociological. Eclectic character of modern education.

4. *Organization of State School Systems.* Growth of public elementary education. Schools for special classes. Technical education.

## B. THEORY AND PRACTISE OF EDUCATION.

**FIRST TERM:**

1. *Various Definitions of Education,* according to different educational aims and ideals. Principal object. Philosophy of education.

2. *Biological and Physiological Aspects of Education.* Physical training; extremes of defect and excess to be avoided. School hygiene.

3. *Psychology Applied to Educational Processes.* Inter-relations of brain and mind. The doctrine of attention and interest, and means to secure them.

4. *Formation of Judgment.* Development of habits of thinking and self-activity. The art of questioning. Divers forms of repetition.
5. *Methods of Instruction.* Apperception. Illustrations and object lessons. Exercises and essays. Choice of subject. Correction.
6. *Training of the Imagination and Cultivation of Taste.* Teaching of literature, particularly poetry. Aids to memory training.
7. *The Courses of Study; Overcrowding of Subjects.* Comparative worth of different branches (languages, literature, science). Value of the classics. The disciplinary conception of education.

#### SECOND TERM:

1. *Moral Training:* Its prime importance. Educating the emotions and the will. Character formation. Individuality. Temperament.
2. *Correction of Faults, especially of the "school evils":* indolence, lying, disobedience. Prevention of faults.
3. *School Management.* Discipline, practical means of maintaining it. Punishments, their use and abuse.
4. *Educative Agencies.* The home, and means of improving its influence. The Church and its relation to the school; religious education. The state and the school.
5. *The Teacher.* Essential qualifications; necessary preparation for teaching; interest in education.

#### JURISPRUDENCE.

Senior year. Optional. Two hours a week, both terms.

#### FIRST TERM:

*Law in General.* International and municipal law. Federal and State law. Unwritten and written law. The written law of the United States and of the individual States.

*The Right of Private Property.* Property in general. Corporeal and incorporeal property. Real and personal property. Fixtures. Estates. Real and personal estates.

*Estates in Real Property.* Real and personal estates in real property. Estates of freehold and less than freehold. Seisin.

*Real Estate in Real Property.* Freehold estates in general. Estates in fee-simple. Estates in free-tail. Estates for life. Estates by courtesy. Estates in dower.

*Personal Estates in Real Property.* Estates for years. Estates at will. Estates from year to year. Estates by sufferance.

*Time of Enjoyment of Estates in Real Property.* Estates in possession. Estates in expectancy.

*Number and Connection of Tenants in Estates in Real Property.* Estates in severalty. Estates in joint-tenancy. Estates in common.

*Title to Estates in Real Property.* Title. Title by descent. Title by purchase. Deeds. Requisites and component parts. Construction. Will of lands. Requisites of a will. Revocation. Construction.

*Estates in Personal Property.* Chattels. Chattels real. Chattels personal. Choses in possession. Choses in action. Estates in chattels personal. Absolute. Qualified.

*Title by gift.* Gifts *inter vivos* and *causa mortis*.

*Title by Contract.* Contract. Requisites. Oral and written contracts. Expenses and implied contracts. Executed and executory contracts. Validity and construction of contracts. Contracts of sale. Bailment. Agency. Partnership.

## SECOND TERM:

*Private Wrongs.* By nonfeasance. By misfeasance. By malfeasance. Menaces and assault. Battery. Nuisance to health. Libel and slander. Malicious prosecution. False imprisonment. Trespass *quare clausum*. Nuisance to property. Waste. Asportation and detention of choses in possession. Injuries to choses in possession. Fraud.

*Proceedings in an Action at Law.* Courts of law and equity. Causes and parties. Process. Appearance. Pleadings. Jury. Challenges.

*Evidence.* Evidence direct and circumstantial. Material and relevant facts. Facts judicially noticed. Written and oral evidence. Primary and secondary evidence. Hearsay evidence. Depositions. Examination of witnesses. Burden of proof. Arguments of counsel. Charge of judge. Deliberation of jury. Verdict. New trial. Writ of error. Execution.

*Equitable Remedies.* Prohibitory and mandatory injunctions. Temporary and perpetual injunctions. Specific performance of contracts. Rescission of contracts. Correction of mistakes. Interpretation of contracts. Relief against fraud. Redemption and foreclosure of mortgages. Receivers.

*Crimes.* Criminal act and criminal intent. Specific intent. Drunkenness. Infancy. Insanity. Mistake. Accident. Necessity and compulsion as affecting intent.

*Degrees of Crime, Treason, Felony, Misdemeanors.* Treason. Murder. Arson. Burglary. Larceny. Robbery. Perjury. Bribery. Receiving stolen goods. Riot. Rout. Unlawful assembly. Carrying arms. Affray. Assault. Battery. Mayhem. Malicious mischief. Piracy.

*Relation of Criminal Actor to Criminal Act.* Principal and accessories.

*Criminal Procedure.* Arrest with and without a warrant. Arrest by hue and cry. Extradition. Commitment. Bail. Information. Indictments. Grand Jury. Presentments. Arraignments. Plea. Trial. Petit jury. Evidence. Arguments of counsel. Charge of judge. Deliberation of jury. Verdict. Motions for new trial. Motions in arrest of judgment. Judgment. Writ of error. Pardon. Execution. Execution in capital cases.

*Nature and Function of a State.* The State. Formation of the United States. Dissolution of the State. Supreme power of the people. Functions of the State. Government. Government of the United States. Legislative, executive and judicial functions. The Federal judiciary. Courts of the individual States.

*Subjects and Their Relation to the State.* Subjects. Allegiance, Citizens. Aliens. Naturalization.

## LATIN.

N. B.—The work of this department is conducted in such a manner as to furnish material for illustration and comparative study in connection with the parallel courses in English Literature (q. v.).

In Senior and Junior years, Latin is not prescribed, except for students who may not have finished the prescribed courses, but advanced courses may be arranged if desired.

**Course I.—(Sophomore Year).** Eight hours a week.

(a) Composition. Two written compositions in prose required each week and one in verse each month. Elegant translations. Oratorical analysis of authors. Latin orations. Prose work based on Bradley's Aids. Verse composition based on Lupton's Latin Lyrics.

(b) Authors—(First Term). Cicero, pro Lege Manilia.

Horace, Epodes, Satires, Epistles, Carmen Sæculare. Tacitus, Agricola (with sight reading in Germania). (Second Term), Cicero, pro Milone and pro Ligario. Juvenal, Satires. Tacitus, Annals I, 1 to 50 (with 51 to the end for sight reading).

**Course II.**—(Freshman Year). Seven hours a week.

(a) Composition. Two exercises in Latin prose composition each week, based on Bradley's Aids to Latin Composition. One exercise in Latin verse composition each week, based on Gepp's Latin Elegaic Verse, first term, and on Lupton's Latin Lyrics, second term.

(b) Authors—(First Term), Cicero, pro Archia. Virgil, Æneid, Book II, V, VI or IX, (800 lines). Horace, Ars Poetica. Livy, Book XXI, cc. 1-20, with cc. 21-35 for sight reading. (Second Term), Cicero, de Signis or 2d Philippic or Pro Marcello. Horace, Odes. Livy, Book XXI, cc. 35-54, with cc. 55-63 for sight reading.

### GREEK.

N. B.—The reading in this department is conducted in such a way as to furnish material for illustration and comparative study in connection with the parallel courses in Latin and English.

Greek in Senior and Junior years is optional, except for those who have not yet completed the prescribed courses. Courses in advanced work may be arranged as required.

**Course I.**—(Sophomore Year). Four and one-half hours a week.

**FIRST TERM:** Demosthenes, Philippic I, or Aeschylus, Prometheus Bound. Sophocles, Œdipus Tyrannus. Optional, Thucydides, Book II, cc. 1-46.

**SECOND TERM:** Demosthenes, De Corona. Optional, Thucydides, Book II, cc. 47-68. Sight reading in *Œdipus Coloneus* or *Antigone*.

**Course II.**—(Freshman Year). Four and one-half hours a week, besides composition once a week, out of class, based on Sidgwick's *Introduction to Greek Prose Composition*. Repetition of the Syntax of dependent sentences, a few simple rules of Prosody, and the most general laws of versification.

**FIRST TERM:** Homer, *Odyssey*, Book I, II (any other books may be substituted). Plato, *Apology*. Optional sight reading, in Herodotus (Merry), Parts I-V.

**SECOND TERM:** Demosthenes, *Olynthiacs*, 1, 2, 3. Euripides. *Hecuba*. Herodotus (Merry). Parts VI-X, for sight reading.

#### ENGLISH.

**Course I.**—(Senior Year). Optional. Two hours a week. Comparative study of Dramatic Composition. Discontinued at present.

**Course II.**—(Junior Year). Optional. Two hours a week. Comparative study of Italian and English or of French and English literature.

**Course III.**—(Sophomore Year). Three hours a week, besides a written theme, oratorical, poetical, critical or historical, once a week, outside of recitation hours.

**A.** Theory of Rhetoric. Kleutgen, S.J., *Ars Dicendi*, Part IV. *De Eloquentia* (first term), pp. 255-317; (second term), pp. 317 to the end. Coppens, S.J., *Oratorical composition* (first term), pp. 1-194; (second term), pp. 194 to the end.

For Reference: Cope and Sandys, *Aristotle's Rhetoric*; Wilkins, *De Oratore*; Whately; Genung; Du Cygne; Blair; Baker; *Specimens of Argumentation*.

**B. Rhetorical Analysis and Composition.** Analysis of three speeches: (first term), Demosthenes, first Philippic, or Aeschines on the Crown; Cicero, pro Lege Manilia; Burke, American Taxation, or Bristol Election; (second term), Demosthenes, de Corona, Cicero, Pro Milone; Burke, on Conciliation, or one of Webster's speeches. Selections from Bradley's *Orations and Arguments*.

**C. History and Criticism:** (first term), *The Elizabethan Age*—Brooks, *English Literature*, pp. 71-108; (second term), *American Literature and Early English Literature*.

For Reference: Saintsbury, *Age of Elizabeth*; Ward, *English Poets*, Vol. II; Jebb, *Athenian Orators*; Campbell, *Guide to Greek Tragedy*; Stedman's *American Poets*.

**D. Reading and Discussion:** (first term), Shakespeare, *Hamlet* (with analysis); *King Lear* (reading). Palgrave's *Golden Treasury*, Bk. I; Burek's *Bristol Election* or Webster's *Bunker Hill Speech*; Newman's *Second Spring*; (second term), Shakespeare, *Macbeth* (with analysis); Julius Cæsar (reading). Selections from Bradley's *Oratorical Selections*.

**Course IV.—(Freshman Year).** Three hours a week. One composition a week done out of class, alternately in prose and verse.

**A. Principles of Literature.** Choice of words,—elegance, vigor and variety of expression. Power of developing thought fully and in an orderly way. Attention to close rhythm and movement of sentences. The finer points of style, such as connotation, economy, suggestion. Laws governing narration, description and exposition. General laws of versification, with special reference to the sonnet, the ode and the Spenserian

stanza. Distinctive features of poetic diction. The emotional and intellectual elements of poetry. Kleutgen. *Ars Dicendi* (first term), pp. 1-178; (second term), pp. 180-250. Coppens, *Introduction to Rhetoric*; (first term), Books III and IV; (second term), Books V and VI. Connell, *Study of Poetry*.

For Reference: Butcher, *Aristotle's Theory of Poetry and Fine Arts*; Stedman, *Nature of Poetry*; Ward, *English Poets* (Introductory Essays); Watts, *Essay on Poetry* (*Encyclopedia Britannica*); Shairp, *Interpretation of Nature*; Jebb's *Athenian Orators* (Introduction); Newman, *Idea of a University* (on Style); Pater's *Essays on Style*.

**B. Reading, Literary Analysis and Discussion;** (first term), Milton's *Lycidas*, Shelley's *Adonais*, Wordsworth and Keats. *Masters of English Prose*—De Quincey, Newman, Ruskin, Hawthorne, Bryce, Arnold; (second term), Shakespeare, Spencer, Milton's *Paradise Lost*, and Selections from Tennyson. For reference: Brewster's *Studies in Structure and Style* and Palgrave's *Golden Treasury*.

Text-books—Palgrave, *Golden Treasury* (First Series), Books 3, 4; *Golden Treasury* (Second Series).

**C. History and Criticism:** (first term). Lake School to Victorian Age, inclusive (1745-1909); (second term), from Elizabeth to Pope (1603-1730).—Brooke's *Primer of English Literature*, cc. 5-10 (incl.).

For Reference: Ward's *English Poets*, Vol. III, IV; Saintsbury, *19th Century Literature*; Stedman's *Victorian Poets*; Thomas Arnold's *English Literature*; Sutton's *History of Catholic Literature in England*; Jenkins' *English Literature*; Minto's *Georgian Era*; Gosse, *18th Century Literature*.

## HISTORY.

**Course I.—(Junior Year).** Two hours a week. *History of Social Revolution* (first term); *Constitutional History* (second term).

Lectures based on Guggenberger, General History of the Christian Era, Vol. II (first term); Hinsdale or Story (second term).

References on the Constitution: Bryce, American Commonwealth; Channing, Students' History of the United States; Macdonald, Select Charters and Select Documents; Goldwin Smith, The United States; Macy, Political Parties in the U. S.; Ford, Rise and Growth of American Politics.

**Course II.—(Sophomore Year).** Two hours a week. History of Religious Revolution. The Renaissance. Lecture based on Guggenberger, General History of the Christian Era, Vol. II.

**Course III.—(Freshman Year).** Two hours a week. History of the Papacy and the Empire. The Migration of Nations. The Rise of the Empire. The Crusades. The Rise of the Papacy. Lectures based on Guggenberger. General History of the Christian Era, Vol. I.

#### MECHANICS.

**Course IIIa.—(Sophomore Year).** Two hours per week throughout the year. General Mechanics, Mechanics of Liquids and Gases. Text-book, Carhart's College Physics.

#### MATHEMATICS.

Differential Calculus (Junior and Senior Years). Four hours per week. Variables, Limits, Derivatives of Algebraic, Trigonometric and Log. functions. Differentials, Maxima and Minima Partial Derivatives.

Text-book, Osborne, Differential and Integral Calculus.

Freshman Year. Four hours a week.

**FIRST TERM:** Trigonometry—Functions of acute angles. The right triangle. Goniometry. The oblique triangle. Con-

struction of logarithmic tables. Surveying. Triangulation Leveling. Practical work in Surveying. Analytic Geometry—Loci and equations. The straight line. The circle. Different systems of co-ordinates. The parabola. The ellipse. The hyperbola.—Text-books: Young and Morgan.

### SCIENCE.

**Course Ia.—Astronomy (Senior Year).** Two hours a week, one term.

Application of the general principles of Spherical Trigonometry, with experiments and observations. Text-book: Young.

**Course Ib.—Geology. (Senior Year).** Two hours a week, one term.—Text-book: Brigham.

For References: Geikie, Class-book of Geology; Kelvin, Geology and General Physics; Russell, Volcanoes of North America; Jukes-Browne, Geology; Russell, Glaciers of North America and Lakes of North America; R. S. Tarr, Elementary Geology. Leconte.

**Course Id.—Biology. Optional for Juniors and Seniors.**

This is a two-year course in pre-medical Biology, *eight semester* hours at least being required of students. Only those who have begun the course in Junior year may take the advanced work in Senior year. The two-year course is calculated to meet the requirements for entrance into Medical Schools as laid down by the American Medical Association.

### JUNIOR YEAR

**Lectures**—One hour a week throughout the year. They include explanation of the specific and comparative anatomy and physiology of zoological types, from the Protozoa to the Reptilia. The topics of cell life, spontaneous generation, evolution and heredity are also discussed.

**Laboratory**—Two hours a week throughout the year. Careful dissection of the principal types of invertebrates; of the perch and frog.

## SENIOR YEAR

*Lectures*—Two hours a week throughout the year.

First Half Year. *Comparative Anatomy of Vertebrates*—Detailed study. Explanation of the parts and functions of vertebrate animals; their interrelations, etc. General characteristics, economic importance, evolutionary position, etc., of Sauropsida and Mammalia are considered.

Second Half Year. *General Botany*—Structure and Physiology of plants in general; particular study of selected types from the Proto-phytes, Bryophytes, Pteridophytes and Spermatophytes.

*Histology*—Lectures on careful use of microscope; on histological methods; on the cell, blood, fibrous and epithelial tissues; on bone, muscle and cartilage.

*Embryology*—General explanation of pig and chick embryos in the early stages.

*Laboratory*—Four hours a week throughout the year.

First Half Year. *Zoology*—Accurate dissection and study of Turtle and Rabbit.

*General Botany, Histology and Embryology*—In Botany a detailed study, gross and microscopic, of types selected from the various orders required.

In Histology a minute examination and comparison of the structure and features of cells, blood, tissues of bone, gland, lung, liver, stomach, intestine, trachea, oesophagus and kidney are made.

In Embryology various stages of one or more types are prepared and examined.

## A COURSE IN TECHNIQUE.

In this division of the work the student is required to learn the details of preparing plant and animal tissues for gross and microscopic study. He is given tissues for preparation and is required to carry them through the successive steps of fixing, hardening, dehydration, infiltration, embedding, cutting and staining. A set of thirty-five slides of a tissue properly stained and mounted is required from each student before credit is given for this branch of the work. The paraffin, celestoidin and combination methods are employed. Hours by arrangement.

# RE-FITTED CHEMISTRY LABORATORY

1. Trough in New Tables.
2. Lockers and Lock Bars.
3. Gas and Water Arrangement.
4. Fume Chamber.
5. Ventilators for Fume Chamber.
6.  $H_2S$  Outlets.
7. Supply Room.
8. Former Analytical Laboratory.

## PHYSICS

**Course IIa.—Junior Physics.** Time, five hours a week, three of which are lectures and two laboratory.

This course, which is a continuation of Course IIIa in Sophomore year, treats Heat, Light, Electricity and Sound. The aim is to present the subject as a connected body of science embodying the various laws governing the transformations and transfers of energy.

The laboratory work consists in the experimental verification of the laws discussed in the lectures. It is the aim to have the two parts of the course proceed simultaneously.

Text-books: College Physics, Carhart. Manual of Physical Experiments, Ames & Bliss.

**Course Ic.—Experimental Physics.** Open to Seniors only. Optional. Four hours through the year. Periods by arrangement.

This course is designed to give the student a more extended knowledge of Physical Measurements and Precision than is possible in the Junior year. The apparatus used is of the Precision type and exacts a skill in accurate measurements. The advanced experiments in Photography, Spectroscopy, Magnetism, Electrical Constants and Thermodynamics comprise the work of the year. Written reports must be submitted.

Text-books: Electricity, Sound and Light, Milliken & Mills; Computation Rules and Logarithms, Holman.

## CHEMISTRY.

**Course I.—Two lecture or recitation periods and two laboratory periods a week.** Freshman year, second term (three semester credits). Text-book: College Chemistry, Newell.

Inorganic Chemistry—Introduction. Physical and Chemical Changes. Matter. Energy. Elements. Compounds. Mixtures. Oxygen. Ozone. Hydrogen. Water. Law, Theory, Hypothesis. Fundamental Laws and Theories. Solution. Electrolysis. Atmosphere. Acids, Bases. Salts and Neutralization. Atomic and Molecular Weights. Valence. The Periodic Law. Non-Metals and their Compounds.

**Course II.**—Two lecture or recitation periods and two laboratory periods a week. Sophomore year (six semester credits). Text-book: College Chemistry, Newell.

This course comprises the chemistry of the Metals and their Compounds. The systematic study of the properties of metals through Basic Qualitative Analysis is given as Laboratory Work during the first term, while the second term is taken up with Acid and Dry Analysis. The students are given the usual analyses of solution, known and unknown, of salts, metals and alloys, together with methods of Acid and Dry Analysis and the Preparation of Substances for Analysis in Solution. The aim of this course is not primarily technical, but formative. It is sufficient to give the student an insight into scientific methods and accustoms his mind to the scientific point of view. It is an element of great value in the training of men for professional and business careers by developing habits of thoroughness, accuracy and clear, practical judgment. The student is taught self-reliance and the habit of independent observation and deduction, while at the same time he gains a practical knowledge of scientific methods which will cling to him in after years, and forms a valuable portion of his education. He learns that the laws of Nature are inexorable, and that only by careful, cleanly methods, by strict attention to details, and by close adherence to the proper conditions of a test, can reliable results be attained. Mere mechanical following of "Tables" is discouraged, and special insistence laid on a proper understanding of the chemical principles involved in the processes of analysis. The classes are divided into several sections in order to give more individual training in accurate and skilful manipulation. The course extends through the year, and while but four hours a week are required, the laboratories are open all day for the benefit of those who wish to devote more time to the subject.

**Course IIb.**—(Junior Year). Qualitative Analytical Chemistry. Analysis of Inorganic Substances. Three hours a week.

**Course III.**—Quantitative Analysis. (Optional in Junior year). One lecture or recitation period and one laboratory period of two hours a week throughout the year. (Four semester credits). Text-book: Quantitative Chemical Analysis, Talbot.

Lectures with laboratory practice in the use of typical methods of gravimetric and volumetric quantitative analysis. This course is open only to those who have taken a satisfactory course in qualitative analysis.

**Course IV.—Organic Chemistry.** (Optional in Senior year). Two lecture or recitation periods and two laboratory periods a week throughout the year. (Six semester credits.)

This course, while of general interest, is arranged chiefly to meet the requirements of those who intend to take up the study of medicine after they have finished their college course. In it the student may acquire that knowledge of elementary organic chemistry which is required by medical schools at the present time. The course, which treats first of the analysis and purification of organic compounds, embraces the paraffins, together with their halogen derivatives, alcohols, ethers, aldehydes and ketones, acids, esters and amines. Special attention is given to the study of the carbohydrates and proteids, the aromatic hydrocarbons and their halogen and nitro derivatives, the aniline dyes, and the phenols. The alkaloids, because of their great importance to students of medicine, will be dwelt on more at length. The laboratory practice consists in the preparation and qualitative analysis of typical organic compounds, selected to illustrate important technical operations, together with a practical application of the methods of determining boiling points, melting points and specific gravity. Particular attention is paid to the scientific principles involved in the operations.

Text-book: Cohen's Theoretical Organic Chemistry. Laboratory manual: Cohen's Practical Organic Chemistry.

#### EVIDENCES OF RELIGION.

**Course I.—(Senior Year).** One hour a week, besides one hour for weekly conferences. General Review of Course II, III, IV.—Wilmers, S.J., Handbook of the Christian Religion.

**Course II.—(Junior Year).** One hour a week, besides one hour for weekly conference.—Wilmers, S.J., Handbook of the Christian Religion, pp. 1-200.

**FIRST TERM:** Christianity, a revealed religion. Revelation in general. Pre-Christian revelation. The Christian revelation. The Church—its institutions, end, constitution.

**SECOND TERM:** Marks of the Church. Teaching office of the Church. Holy Scripture. Tradition. Rule of Faith. The existence of God. The nature of God. Attributes of God. Unity of God. The Most Holy Trinity.

**Course III.**—(Sophomore Year). One hour a week, besides one hour for weekly conference.—Wilmers, S.J., Handbook of the Christian Religion, pp. 349 to the end.

**FIRST TERM:** The Sacraments of Penance, Extreme Unction, Holy Orders, Matrimony. The Church as a means of salvation. The Last Things. Christian morality.

**SECOND TERM:** Christian duties towards God, ourselves, our neighbor. Christian perfection.

**Course IV.**—(Freshman Year). One hour a week, besides one hour for weekly conference.—Wilmers, S.J., Handbook of the Christian Religion, pp. 200-349.

**FIRST TERM:** The Creation. Spiritual and material world, man. Different orders of creation in relation to one another. The Redemption.

**SECOND TERM:** Grace and the Sacraments. Baptism, Confirmation. Holy Eucharist. Penance.

#### MODERN LANGUAGES.

**N. B.**—But one year (Freshman) of prescribed work in this department is required for the A.B. degree. Students entering Freshman class are supposed to have a fair reading knowledge of French or German. Two or three years of preparatory study in French or German would be required in order to follow the regular courses prescribed for Freshman year. Those who enter without this preparation will be obliged to take an

elementary course in either French or German during their Freshman year.

Advanced courses (optional) in these languages will be arranged, parallel with the courses in English, when applications are sufficiently numerous to warrant the Faculty in making this provision.

**French Course I.—(Sophomore Year). Optional.**

This course is offered only on condition that the number of applicants and their knowledge of French may warrant it.

(a) Study of the French orators: Bossuet, Bourdalou, Massilon, Flécher. Parallel with English III, A and B.

(b) Study of French dramatics: Corneille, Racine, Molière, De la Vigne. Bornier, La Fille de Roland. Rostrand, Cyrano de Bergerac. Parallel with English III, C and D.

(c) Private reading, directed by Professor. Conference.

**French Course II.—(Freshman Year). Prescribed (for students not taking German). Two hours a week.**

**FIRST TERM:** Literary criticism of Chateaubriand's *Atala* or *Le dernier des Abencerages* and Molière's *le Bourgeois Gentilhomme* or *L'Avare*.

**SECOND TERM:** Literary criticism of Corneille's *Le Cid* or *Polyeucte*.

**German Course I.—(Sophomore Year). Optional. Offered on same conditions as French Course I.**

(a) Study of the German Drama and of Epic poetry. Lessing, Schiller, Göthe, etc. *Nibelungen*. Klopstock's *Messias*. Parallel with English III, C and D.

(b) Private reading, directed by Professor. Conference.

**German Course II.**—(Freshman Year). Prescribed (for students not taking French.) Two hours a week.

**FIRST TERM:** Literary criticism of Jansen's *Die Braune Erica* and Göthe's *Herman und Dorothea*.

**SECOND TERM:** Literary criticism of Schiller's *William Tell*.

#### ORATORY AND ELOCUTION.

The work in this department is so arranged that each student may have the maximum of attention from the professor. There is a class for vocal drill and expression, with exercises in perfect carriage and gesture, interpretation and delivery. Students are required to speak before the class a certain number of times each term, and every year purses are awarded to the winners in a public contest. In the Senior and Junior years, this contest consists of the delivery of original orations.

PHILOMATHIC SOCIETY

This Society was founded in 1873. According to Article II of the Constitution, "the object of the society is to cultivate in its members the faculty of debating and to afford them an opportunity of acquiring information on subjects which shall be principally of an economic, political or sociological character."

## THE DRAMATIC SOCIETY

The first dramatic societies established at the college were the "Pakachoag Dramatic Club," founded in 1840, and the "Smithsonian Ethiopian Minstrel Club," established the same year. The Dramatic Club was reorganized under the former name in 1864. The society was established on its present basis in 1889. Its chief aim is to promote elocution by training the students in dramatic art. Classic dramas are presented each year with marked success.

## THE HOLY CROSS PURPLE

THE HOLY CROSS PURPLE is a monthly magazine published by the students of the college. Its aim is to cultivate a high literary taste among the students by exercising them in both critical and creative composition.

It serves also as a bond that keeps the Alumni in touch with their Alma Mater, chronicling their successes and telling them briefly the important happenings of college life.

## K. K. SOCIETY

The K. K. Society<sup>3</sup> was founded at the college some two years ago, with the main purpose of centralizing, fostering and cultivating the many varieties of literary talent in evidence among the undergraduates. Joyce Kilmer and our own Edward Killeen are what we might not inappropriately term the title patrons of the organization, since it was with these poetic souls as an inspiration that the K. K. had its birth at the close of the war.
